

## **H1N1 Vaccines Available**

October 30, 2009

One of our families sent the following information.

I was able to get an appointment to receive the H1N1 vaccine through the Cook County Health Department at the Harvey location; 15948 S. Halsted. Anyone living in suburban Cook County and in the high-risk groups (all children) are eligible to receive the shot. There are 2 other locations in Park Forest and DesPlaines that will also be vaccinating. You can make an appointment by calling the Bridgeview office @ 974-6160.
