

MEDICATIONS

Dispensed during school hours ...

If your child has to take medication during the school day, you must take the Medical Authorization form to the child's physician and have him/her complete the form before we are allowed to dispense medication through the School Office.

We cannot dispense medications without the completed Medical Authorization form.

1. Visit our school website, www.mhrrschool.com, on the home page under Admissions choose the Medical Authorization link.
2. Carefully read the guidelines.
3. Print the Medical Authorization form that follows the guidelines and bring it to your physician's office for completion.
4. Return to the School Office along with medication.
